

Collected Comments from petition¹ to Stop the Deforestation of Lake Forest Park from Impacts from Stride S3/SR 522 NE 145 BRT

As of 17 March 2023, our petition has 805 validated signatures from the Sound Transit taxing district. We have included a list at the end of this document.

"I am pro-transit and I voted for ST3, but the "West Shift," planned for LFP destroys our City. It is designed from an engineering/transportation perspective only, without considering impacts to the environment, homeowners or the City. As designed (in the 60% Contract Documents) it creates a concrete corridor, removing 500 trees and over 500 shrubs, replacing them with a tall monotonous concrete wall (nearly the length of the corridor on the west side) and paving on the east side, turning front yards into paved turnaround driveways. This segment of the project (1.2 miles of 9 miles total) is the most expensive and negatively impactful segment of all ST3, with 110 of 205 property acquisitions in LFP. Also with the build, the transit time savings is only 2.3 minutes in LFP during rush hour. The price tag for this segment is over \$250 million dollars. The citizens and taxpayers of Lake Forest Park deserve better. We ask for a fiscally responsible redesign (with Queue Jumps, similar to what is planned for NE 145th"
Vicki Scuri Lake Forest Park, WA 2023-02-18

"I am pro-transit, but this project must be better designed to lessen environmental impacts"
Kim Josund Lake Forest Park, WA 2023-02-18

"Please reconsider the scope of the project. We already have 6 lanes of highway thru the project, enough for the needed transit lane. We don't need to move the road to the west and with it remove hundreds of trees needlessly. Just add a left turn lane at 165th and leave the rest alone!!"
Dale Troy Lake Forest Park, WA 2023-02-18

"This affects all of us!"
Paula Goode Lake Forest Park, WA 2023-02-22

"Ruining Bothell Way N.E. at taxpayer expense does little to improve commute times in today's reality. It does more harm than good to stakeholders & residents of Lake Forest Park while immediate other concerns make better sense until commute needs become apparent. Citizens are not properly informed and aware of realities being forced onto us all. Who is really benefiting from billions of taxpayer dollars in the process !?"

Ernesto Pediangco Shoreline, WA 2023-02-22

"We need more trees"

Sharla Unruh Kenmore, WA 2023-02-22

"Please don't take our trees away! We are name the city of trees fir a reason. The Sound transit is a dumb idea as no one is going to change from driving to it. Spend the money on updating our infrastructure instead!"

Marie Poland Seattle, WA 2023-02-22

"The Environment! We need a living planet for our children & their children! Trees are oxygen! Trees are habitat for wildlife. Trees provide shade & coolness from the sun! Humans are going to be the planet's demise if this continues! Blacktop, asphalt & concrete!"

Pam Masse Seattle, WA 2023-02-23

"We love transit, but there are better options!"

Judy Akalaitis Seattle, WA 2023-02-23

"Cutting down hundreds of trees and pouring thousands of yards of concrete isn't going to help with climate change."

Jason Dougherty Seattle, WA 2023-02-23

"Designing our transportation needs with regard to recognizing the climate emergencies we are in is paramount for all cities and counties now. We can not afford to lose our established tree groves and urban canopy that current science states is vital to help mitigate heat islands and heat waves that we will face now and in the future. And imperious surfaces (concrete) poured over our grounds also increases the risk for heat islands and heatwaves. We will lose important habitat for our birds, many facing extinction, that are part of the ecosystems we all need to survive."

Nancy Morris Edmonds, WA 2023-02-23

"I live in Shoreline but Lake Forest Park is part of my community. I'm also a taxpayer that supports transit. The SR522/NE 145th project environmental impact to Lake Forest Park will be unnecessarily massive. Design changes must be made in order to reduce tree removal, minimize homeowner property loss and retain the uniqueness of the Lake Forest Park community."

Claudia Turner Shoreline, WA 2023-02-23

"I take the ST 522 and connect to Light Rail to go to work. This project will only impact the northbound transit through Lake Forest Park, as there is already a bus-only lane southbound on Bothell Way. While it's nice to have a bus only lane, buses only drive on this lane every five minutes or so currently (the ST 522 and the Metro 372). This is typically an unused lane/space. The impact to the environment in cutting down so many trees doesn't seem worthwhile in comparison to saving a couple of minutes during the afternoon rush hour. The price tag is also very high, and think of the impact this will make for traffic during the construction phase of the project. The cost/benefit, in my opinion, is very negative for the Lake Forest Park portion of the project. Sound Transit, please listen to the community and make the right decision. Save the money, preserve the environment, and add the Bus Queue Jumps northbound on Bothell Way at the bus stops. I believe there are only four stops. We, the bus ride"
Erik Halvorson Lake Forest Park, WA 2023-02-24

"We moved from Seattle downtown to raise our family with more nature around."
Sanjivani Chettiar Lake Forest Park, WA 2023-02-24

"Please save the trees." Sandra Layman Seattle, WA 2023-02-24

"I think this is a horrible, costly plan and I don't want to see trees replaced with a hideous cement wall. It's unfair to Lk Forest Park homeowners to be forced to give up part or all of their private property which will upend their lives. Find a better and more reasonable solution."
Jamie Brown Kirkland, WA 2023-02-25

"This current Sound Transit plan is obviously not aligned with the values of LFP and it's residents. There has to be a better, cheaper way that allows for maintaining more property, trees, and doesn't create a concrete corridor."
Ben Todd Lake Forest Park, WA 2023-02-26

"Transit ridership is declining. The good of the many outweighs the good of the few. A more moderate approach would be bus turnouts and bike lanes like the recently completed project along Juanita Drive. All this effort and expense to shorten a bus commute by a few minutes? The bus lane on the other side of Bothell Way is vacant 95% of the time."
Kristi Stoa Lake Forest Park, WA 2023-02-26

"The cost and invasive nature of this plan are not worth the travel time saved. There are better alternatives."
Karla Linder Seattle, WA 2023-02-27

"The cost and impact do not align with the community needs."
Keith Reed Seattle, WA 2023-02-28

"While I understand the need for mass transit, at what cost to our tree canopy and neighborhoods should this be? Please revisit design ideas that are less impactful to the surrounding neighbors."

Shana Kelly Seattle, WA 2023-02-28

"Message to Sound Transit- respect the environmental impact your decisions will make. Tread lightly. Leave the trees and homes intact"

Teresa Williamson Lake Forest Park, WA 2023-02-28

"The healthy forest of lake forest park is critical to the local environment. Mass transit is not environmentally friendly if it paves over these native habitats"

Vivian Maturi Seattle, WA 2023-02-28

"Besides destroying trees, the Sound Transit project will have little to no impact on commute times. They are trying to push this through without getting citizen comment."

Charles Anstett Seattle, WA 2023-02-28

"This is just another glaring example of ST3 drunk with power. Their vision is already outdated and outmoded. Further deterioration of quality of life will happen as a myriad of bus routes will cut through a vast number of residential neighborhoods. All based on the theory of overwhelming demand to ride a light rail car to Downtown Seattle. They must be stopped."

William King Seattle, WA 2023-03-01

"Please develop RESPONSIBLY. It CAN be done."

Jill Chapman Shoreline, WA 2023-03-01

"I want to live in a world with trees not concrete."

Catherine Gibbs Shoreline, WA 2023-03-01

"We need less concrete and more trees & greenery, not the other way around. This design needs to be seriously rethought."

Thayer York Lake Forest Park, WA 2023-03-02

"With increasing adverse effects of climate change occurring, we need to retain our tree canopy, not reduce it."

Lois Hanson Seattle, WA 2023-03-02

"If there is a less invasive, less tree killing, more amenable we should pursue that, Please listen. We do not want the current plan."

Kathleen Coffee Seattle, WA 2023-03-04

"I oppose the arbitrary decision to change the project, strip our greenbelt, and put up a horrible concrete corridor along Lake Forest Park."

Nellie Ann Mills Seattle, WA 2023-03-04

"Planners and contractors are going to go with the easiest, most sterile looking options. It is less expensive than working around a neighborhood's beloved green belt. Let's look at more desirable options. 'Cause once the construction crews are gone, it's us that has to live with it."
Shelley Smith Seattle, WA 2023-03-04

"This will go a long way to ruining our beautiful city. It is a horrible and thoughtless design. Stop it!"
George Piano Lake Forest Park, WA 2023-03-04

"I drive this way regularly, and this plan has too much impact on community members (noise pollution is a huge problem in this area) and is environmentally and fiscally irresponsible."
Kathleen Hayes Kenmore, WA 2023-03-05

"Trees Matter!"
Melissa Ann Povey Lake Forest Park, WA, 2023-03-05

"I drive this way daily, and this plan has too much impact on community members (noise pollution is a huge problem in this area) and is environmentally and fiscally irresponsible."
Alicia Terrenzio Kenmore, WA 2023-03-05

"I'm signing because the loss of 500 mature trees is detrimental to our city and I believe we can have transit while maintaining our tree cover. Also the 522 bust is one I use everyday. Rerouting it to go to 145th instead of it's current route down Lake city way to Roosevelt station, would leave large areas of Lake city way devoid of transit options. This is not acceptable in a city the size of Seattle. Also if there is no 522 sound transit on LCW to Roosevelt station then people will not be able to access light rail at all. The nearest bus stop is 4 blocks in either direction uphill, not acceptable for someone with mobility challenges or anyone carrying groceries, particularly in the rain. Looks at the ridership on ST 522 from Roosevelt LR and LCW to Woodinville. The numbers speak for themselves. It's a BUSY bus for many!!!!"
Roniq Bartanen Seattle, WA 2023-03-06

"I want the low impact design solution we are proposing because the high impact solution proposed is unnecessary, expensive, and will permanently ruin the natural beauty of the area."
Maribeth Haglof Seattle, WA 2023-03-06

"I value the green corridor entrance to LFP. It is very short-sighted to spend money on land and a retaining wall when nearly the same result would cost so much less."
Sarajane Siegfriedt Seattle, WA 2023-03-07

"Our LFP community has provided a strong and good common sense alternative that will still allow progress but without devastation to 110 homes/families and so many trees. Please listen!!! Thank you."
Donna Hawkey Seattle, WA 98155 2023-03-08

"These trees should NOT be cut down, but preserved! We need our trees for many reasons!"
Donna Duffey Renton, WA 98056 2023-03-08

"Often those citizens that voice objection to higher density zoning are referred to as Nimby's by officials making decisions. Those officials supporting the ST development through Lake Forest Park are either uniformed regarding the environmental impacts and reasonable solutions to mitigate them, or just plain stupid. The answer to which example defines them will be evident soon."

Jack Tonkin Lake Forest Park, WA and Riverside, CA 2023-03-09

"Green space and tree cover is a precious resource that deserves to be protected. CORE is proposing viable, realistic alternatives to the Sound Transit's plan (queue jumps and priority signals instead of a dedicated bus lane). Saving money, reducing project scope, limiting detrimental impact to the community, and protecting trees while still achieving the transit goals of improved BRT service seems like a win for absolutely everyone. Preserve the LPF corridor!"
Lari McEdward Lake Forest Park, WA, 2023-03-10

"I travel this section of road several times a week. I often see eagles and I think removing the trees may remove the eagles. That in my book is a travesty."
Janet Neice Shoreline, WA, 2023-03-10
